Intensive Learning Activity Week Entrepreneurship Education in Primary Teacher Education, Roskilde Denmark 14-18. May 2018

University College Absalon and The Danish Foundation for Entrepreneurship are proud to host the first learning activity week for initial teacher training students. EIPTE, “Entrepreneurship In Initial Primary Teacher Education” is a Strategic Partnership funded by the European Union under Erasmus KA2. It presents an outstanding opportunity to learn about entrepreneurship in primary school, and to develop professional teaching competences. The overall purpose of EIPTE is that students at HEI as future primary teachers are capable of creating an entrepreneurial pedagogy and environment in which pupils will have the opportunity to test and develop their entrepreneurial mindsets.

Target Group for the learning activity week in Denmark

Target Group are students in initial teacher training, especially focusing on primary school teaching. Teachers at teacher training institutions are also welcome and additional content will be added to the basic programme for this group.

Program

The goal for this learning activity week is to create a process, where teacher students will learn and experience entrepreneurial didactics – by creating an entrepreneurial process for pupils in a school.

For five days we will achieve a theoretical and practical understanding of the notion of entrepreneurship and entrepreneurial competences. We will do a lot of practise, present tools, tricks and tips for the students, preparing them to perform reflected teaching that supports entrepreneurial mindsets and competences for their coming primary pupils.

The program is a blend of theory and workshops; an entrepreneurial process that gives a personal and embodied experience for entrepreneurship.

This leads to a session where the participants shall develop and perform a session for real live Danish 3.-6. Grade pupils.

Important notice

EIPTE learning activity weeks are an exclusive opportunity to meet and learn with teacher students in a trans-European setting. The venue is organized in teams, so every participant must notice an obligation to be part of all sessions and activities during the event. In return we guarantee hard work, fun and that participants will be part of an exclusive group of skilled entrepreneurship teachers.

Learning Outcomes

After participation participants:

- Will have a theoretical knowledge on entrepreneurship in a pedagogical context
- Will be able to develop, design, practise and evaluate cycles of lessons that involve entrepreneurship
- Will be able to support and integrate entrepreneurial competences in their daily teaching practise enabling a dual focus (curriculum and EE) through didactical thinking and reflected methodology
- Will be able to critical thinking and reflection on teaching practise in regards to entrepreneurship

Practical Information

The event takes place at University College Absalon situated in Trekroner just outside the municipality of Roskilde DK (and a short 22 minutes train trip to Central Copenhagen).

Your participation will be financed by the EU Strategic Partnership budget, if you are a student or a staff member of the participating organisations. The travel allowance (unit cost) is 180 euros for a distance of up to 499 km, and 275 Euros for a distance of up to 1999 km. You can use this **Distance Calculator**: http://ec.europa.eu/programmes/erasmusplus/tools/distance_de.htm.

Each student will receive 330 Euros for accommodation and food. They need to arrive on Sunday, May 13th, and they need to depart on May 19th. This is important, because the stay will only be funded, if the student stays 5 whole days.

Each staff member will receive 100 Euros per day of stay for accommodation and food.

The price for a lunch in the canteen in Absalon is app. 4 Euros, and the price for the dinner Friday evening in Copenhagen is 7 Euros pr. Person.

IMPORTANT: All students must read this before they arrive in Denmark:
